SAFETY AT SEA MEET PLEASES SEN. LEWIS

Says Convention Should Meet With Favor of U. S.—Hopes Senate Will Ratify Treaty.

LONDON, Jan. 21.—Sen. J. Hamilton Lewis of Illinois, chairman of the United States delegation to the Conference on Safety at Sea, Tuesday night expressed himself as highly pleased with the result of the conference.

"The convention should meet with the favor of the United States," he said. "I consider that on the whole the results accomplished are very satisfactory. I am most pleased with the clause providing for the ships to warn vessels of the proximity of icebergs or other obstructions. While I proposed this clause, all credit for its adoption should be given to the United States naval officers on the committee. The provision that wireless stations shall be established in suitable points on all coasts of the countries affected by the new treaty, as well as upon all vessels crossing from coast to coast is also most gratifying to me.

"The provisions for the protection of seamen and the exemption of sailors from arrest for leaving a ship where the treatment by the officers compels abandonment are some of the most important which are directly attributable to the efforts of the United States delegates. It is distinctly American, for a measure taken directly from the shipping law has just passed congress.

"All of the nations affected must ratify the treaty before it becomes international and it is my hope that the senate will be the first body to give its sanction and thus establish a precedent for the future peaceful solution of international questions and disputes."

SAYS CHRISTIANS FIGHT BETTER THAN PAGANS

WASHINGTON, Jan. 21.—Rev. William R. Lawrence, bishop of Massachusetts and chairman of the house of bishops of the Episcopal church, told the house naval affairs committee Tuesday that Christians had better fighters than pagans.

Bishop Lawrence headed a delegation of churchmen to obtain an increase in the number of navy chaplains. It was also requested that navy chaplains be given the rank and promotion privileges of navy surgeons.

WANT LINCOLN HIGHWAY ON JEFFERSON BLVD.

That the route of the Lincoln highway may be changed from Vista av. in this city on to Mishawaka to E. Jefferson blvd., is the statement of A. R. Pardington, vice president of the national association, who was in the city recently. According to him, petitions will shortly be presented to the highway officials to that effect.

The petition committee will report to the county commission on Wednesday morning at a special meeting at which time it is probable that a date for an election will be set by the board. Unless arrangement is made to cover the proposed change, however, the petitions will be circulated immediately.

PASTOR MARRIES, THEN RESIGNS HIS PARISH

LAPORTE, Ind., Jan. 21.—Because Miss Cora Miles of Fair Oaks, Ind., accompanied the Rev. R. O. Wickham to Chicago, five days after the death of his wife and then took the young woman to St. Joseph, Mich., where he married her, the congregation of his church at Remington, Ind., has accepted his resignation.

Mr. Wickham has filled Christian church pastorates in Illinois, Michigan and Ohio.

RECOMMEND RELEASE. INDIANAPOLIS, Jan. 20.—Because of lack of incriminating evidence Charles Fisher, a Chicago strike breaker, accused of fatally shooting Thomas Carleton, a union chauffeur, during the recent street car strike, was recommended to be released by the grand jury Tuesday. Fisher was one of a dozen imported strike breakers who fired a volley into a crowd.

Frost-bites, Chilblains, Corns, Callouses, and Sore Feet. Quick Cure.

Many persons dread the approach of winter on account of chilblains and frost-bites which cause a serious itching at times almost unbearable. Frequently bringing on a nervous condition. The following treatment gives immediate relief. "Dissolve two tablespoonfuls of Calocide compound in a basin of warm water. Soak the feet for 15 minutes. Repeat this for several days for frost-bites, chilblains, corns, callouses, and sore feet. The action of Calocide compound for all foot ailments is really remarkable. It works through the pores and removes the cause. Corns and callouses can be peeled right off. Sore feet smelly feet and tender, aching feet need but a few applications. Blisters get relief instantly. Any druggist has Calocide in stock or will get it from his wholesale house. A twenty-five cent package is usually sufficient to put the worst feet in condition. Each package contains valuable instructions on care of the feet. Published by Medical Formula Laboratories of

WON'T TELL WHAT HE KNOWS ABOUT STRIKE

Investigator of Conditions in Copper Country Says He Has Volumes of Information That He Cannot Divulge.

GRAND RAPIDS, Mich., Jan. 21.—Ernest J. Nicholls, who has been in the copper country for the past three months, Tuesday refused to give any information regarding the affidavits which he has in his possession concerning strike conditions. Mr. Nicholls says he is still under oath to the grand jury which is now in session there and could not lawfully reveal any information which he now has until the grand jury completes its work. In fact, he sent two witnesses to the copper country on the evening train on orders from the grand jury. "I have been investigating murders and other crimes in the copper district for the past three months and have turned volumes of information over to the grand jury," Mr. Nicholls said Tuesday evening. "and I will certainly make this information public if the grand jury does not indict the guilty parties. Two private detectives shadowed me continually while I was conducting my investigation. I was in South Range the night that village was 'shot up' and I have over a dozen affidavits from citizens there to show that this shooting was done by the so-called Wadwell men." Mr. Nicholls, "but still the grand jury took no action in this matter. The grand jury has information of other lawlessness and crimes committed by these imported men and if, upon their conclusion, the grand jury does not indict the proper persons, I will reveal information that will throw an entirely different light on the situation in upper Michigan which has never before been published."

Mr. Nicholls received a telegram from Rep. McDonald Tuesday in which the congressman asked him to prepare himself to go back to the mining district for a United States investigation which McDonald states is sure to result.

DATES MIXED ON MEETING OF DEMOCRATIC LEAGUE

Owing to a misunderstanding with regard to the time for which Toopp had been secured, the Wilson Bryan Democratic league meeting was not held Tuesday night but will be held at that place Tuesday night of next week.

A considerable number gathered for the meeting, but unable to get in, an adjournment was taken for a week. A brief session was held at the office of Atty. John W. Kitch in the Jefferson blvd. and some preliminary plans made. At the meeting next week a local branch of the league will be organized, the purpose for which the meeting is called.

"SQUIRE" DEVINE IS BUSY

Though he has been a "squire" but a few days, John F. Devine, justice of the peace pro tem, during the absence from the city of Justice George Zinky, is being kept busy with marriages. Arthur Sholter, 22, a farmer, and Anna Pianowski, 21, were married at the county clerk's office Tuesday afternoon by Devine.

A license was granted to Frank Hagy, 60, a laborer, and Elizabeth A. Hagy, 56, in the county clerk's office Tuesday.

TENANTS TO FARM SCHOOL

BLOOMINGTON, Ind., Jan. 21.—Thirty tenants, renting farms of Mrs. Mathew T. Scott, departed Tuesday to take the agricultural course at the University of Illinois.

Mrs. Scott, who is the former president-general of the Daughters of the American Revolution, pays all expenses.

FAMILY FOUND DEAD

FORT WORTH, Tex., Jan. 21.—The bodies of John Taylor, his wife and two children were found at their home on the north side Tuesday. They had been dead several weeks and had been poisoned. Taylor worked at a packing house. The cause of the poisoning is not yet known. They recently came here from Oklahoma City.

ARREST FATHER FOR KIDNAPING HIS SON

ELKHART, Ind., Jan. 21.—Habeas corpus proceedings have been filed in the superior court as the result of the arrest of Bert Overly and his three-year-old son, who were taken at the request of a Covington, Ky., officer, who said he had a warrant for Overly's arrest, charging him with kidnaping the child from the home where it had been left by the child's mother. Overly and the child were released from custody on Overly's promise to remain in the city, so that he could be "taken" whenever the Covington officer should arrive here.

DOCTORS SHOW WHY RADIUM MUST BE SAVED

WASHINGTON, Jan. 21.—The wonderful showing of the world's greatest radium experts exploiting the possibilities of radium as a cancer cure, has swept aside all serious opposition to government conservation of radium bearing ore lands.

The testimony offered by Doctors Howard A. Kelley, Robert Abbe and H. Gaylord, before the house committee of mines and mining Monday last, has admittedly startled the authorities into realizing the necessity of placing radium within the reach of the poor, as well as the rich.

Dr. Abbe, the senior surgeon of St. Luke's hospital, New York, is claimed, has shown by his testimony that he has even made a more exhaustive study of radium treatment of cancer than has Dr. Kelley of Baltimore.

A few specific examples of cures effected, as reported stenographically, were given.

SHOOTSELF. NOBLEVILLE, Ind., Jan. 21.—John Revis, aged 45, a farmer of near Deming, committed suicide Tuesday

WHY EXPERIMENT?

HERPICIDE, the First Preparation for Combating Dandruff Contagion, Has Proven Its Worth.

Like most new creations and truths, Newbro's Herpicide, the first preparation in America to be compounded in harmony with the theory that dandruff is a contagious disease, was the subject of much ridicule. The theory of dandruff contagion was subjected to severe criticism, not to say antagonism, by many.

But what is the situation today? Truth has prevailed. The facts concerning the origin of dandruff are known. That it is a contagious disease is admitted.

The extraordinary success of Newbro's Herpicide, both in America and abroad, has caused practically all other scalp preparations to abandon their old claims and imitate those made for Herpicide. As there has seldom been any change made in the preparations, the sincerity of these claims may be doubted. But why

City Needs Policewoman According to City Officials

BY MARY CLARK.

"Does South Bend need a policewoman?" I demanded, point blank, of the kindly Miss Anderson, present custodian of our accused women in the county jail.

"It does," was her unhesitating reply. "It needs one and could use two. Have you read what the Chicago papers have been publishing regarding their success there? Last September, she continued, they appointed ten and now are asking for 15 more."

"But South Bend isn't Chicago," I argued.

"No, of course, it is much smaller." But South Bend isn't as wicked as a big city like Chicago. She shook her head, as much as to say, "you little know," and then said: "Don't talk to me about Chicago. We have just the same problems here and they are just as serious."

"Where would you put a policewoman if we had one?" "At the street car corner and give her supervision of public dance halls and places of amusement. Then I'd have her walking around down town on the streets just keeping an eye on things in general."

"But we don't need any one like that, do we? Why, I've lived here all my life and never had the slightest unpleasant experience."

Probably you never have, but you're not a timid country girl getting off a car at an unreasonable hour and expecting to be met by relatives who haven't materialized. Why I would have to go to the city if we had a policewoman, because the majority of these women and girls and little lost children that I lodge here in the jail would never get here. I looked incredulously at her.

"If a kindly policewoman walked our streets, a timid girl on whom was being forced undesirable attention wouldn't hesitate going up and soliciting her protection."

"A child separated from its mother would be restored to her before it wandered on and on, finally being lost."

Case in Station. Leaving Miss Anderson, I met a friend prominently interested in public matters. Our way happened to be toward the car station. "We ought to have a policewoman in this town," she surprised me by saying.

"What makes you think so?" "The other evening I was waiting for a car. It was about 10 o'clock and I had quite a few minutes to wait. Near the front of the waiting room watching for a car, stood a sweet, quiet-looking girl with a suitcase."

After while I had that conscious feeling as though some one were looking at me, and glanced up to meet her worried and somewhat confused gaze. She dropped her eyes and turned away, but I kept on watching her. A couple of young men, standing off a little distance came up and said something to her but she paid no attention as though what they said was distasteful. They moved away but didn't leave the station. After a few minutes they went up to her again. For the second time she turned away and instinctively she seemed to turn toward me. As soon as they moved away a little distance I went up to her.

"Were those young men bothering you?"

"Yes," she said.

"You're a stranger?"

"Yes, just waiting between cars."

"Were you afraid of them?"

"Yes, but they won't annoy me any more. See, they left just as soon as you spoke to me."

"It was so." They had disappeared.

Yes, Says Chief Kerr.

What does Chief Kerr think of a policewoman?

I called up the chief. "Do we need a policewoman?" I asked.

"Yes we do."

"Do you think we will get one?"

"Of course the chief could not say as to that, but expressed himself to the effect that this would be the time to make such a request."
